LINGUA AEGYPTIA (recommended abbreviation: *LingAeg*) publishes articles and book reviews on all aspects of Egyptian and Coptic language and literature in the narrower sense:

(a) *grammar*, including graphemics, phonology, morphology, syntax, semantics, pragmatics, lexicography; (b) *Egyptian language history*, including norms, diachrony, dialectology, typology; (c) *comparative linguistics*, including Afroasiatic contacts, loanwords; (d) *theory and history of Egyptian literature and literary discourse*; (e) *history of Egyptological linguistics*. We also welcome contributions on other aspects of Egyptology and neighbouring disciplines, in so far as they relate to the journal's scope.

Short articles on grammar and lexicon will be published in the section "Miscellanies". Authors of articles or reviews will receive electronic off-prints. Periodically, we would also like to put the journal at the colleagues' disposal for a forum in which an important or neglected topic of Egyptian linguistics is treated at some length: in this case, a scholar who is active in this particular area will be invited to write a conceptual paper, and others will be asked to comment on it.

Authors should submit papers electronically to the managing editor (lingaeg@uni-goettingen.de). Please send contributions in both doc/docx and pdf format. Further information (incl. guidelines and a template) is available from www.widmaier-verlag.de. The decision whether to publish a manuscript is taken by the editors in agreement with the advisory board.
